Members of the Aledo community gathered together Saturday to take part in a benefit at Impact Athletic Training Center and CrossFit City View for Cameron Hudson, an Aledo High School student who was gravely burned in November 2014. The event also coincided with the athletic facility's grand opening. "We're here to embrace and support a family member," said Aledo Mayor Kit Marshall. Impact gymnasts also performed during the event, and a handful of firefighters from ESD 1 gave a demonstration on fire safety and the tools they use while fighting fires. Fireman Ashton Smith talked to young gymnasts through his face mask.
